Install this software on as many computers as you like!

Business Productivity Software Charity Fundraiser CD

Welcome to the Open Source Charity Fundraiser CD. This CD has a large number of software packages, all of which are Open Source (much like the famous Linux operating system, www.linux.org) All software can be installed on as many computers as you like. You are legally entitled to copy this CD and pass copies on to friends and associates. As with most business and productivity software, no warranties are expressed or implied. All software is used at the risk and discretion of the operator. The software on this CD will work with Microsoft Windows (95 and above.) See CD for more information and any installation details.

All trademarks are the property of their respective owners. See licence for warranty information.

This CD contains business, productivity, utility, education and entertainment software, which has been packaged in a manner to assist charity organisations worldwide in generating donations from businesses and individuals, much like these charities use pens or chocolates. The contents of the CD are all Open Source software (www.opensource.org) and are made available to this charity by the wonderful people who operate the TheOpenCD project (www.theopencd.org). The charity which is offering you this CD will nominate the minimum price for a donation. Full details of the software on the inside cover.

All trademarks are the property of their respective owners. See licence for warranty information.
